

## OPTIONS

---

### Housing

- European coniferous wood
- hardwood of European origin
- oiled exotic wood
- premium exotic wood
- concrete
- HPL board

### Mounting method

- to screw

### Ashtray

- with an ashtray

### Contribution

- galvanized sheet insert

## DESCRIPTION

---

The Altus trash receptacle is a contemporary option for sorted waste disposal. The 15.252.3 model features a recycling bin complete with an integrated ashtray. Its sleek design marries steel with high-quality wood. Upon request, the Altus can be crafted from either structural or stainless steel, with a finish of either domestic or exotic wood. The Altus recycling bin boasts a three-compartment structure, each fitted with a galvanized liner. For waste separation, you can either use the liner alone, or implement color-coded disposable bags. Altus is a highly functional model, with each wooden slat engraved with descriptions indicating the use of each compartment. The Altus recycling unit can be positioned as a standalone feature in places like shopping mall corridors or secured to the ground. Altus symbolizes both modernity and sophistication in city furnishings, all while promoting environmental responsibility.

**GENERAL TECHNICAL DATA****Dimensions**

- height: 32 1/4 in

**Capacity**

- capacity: 14 1/2 gal

**Materials**

- stainless steel profiles
- galvanized sheet insert
- wooden planks

**NOTE: The drawings do not reflect the actual dimensions of the foundation. These are only sample installation diagrams taking into account the type of anchoring and the material of the substrate to which to attach the furniture.**

The size of the foundation depends on local foundation conditions.

### INSTALLATION TO PAVING WITH FOUNDATION

#### Installation description

1. ZANO product
2. Quick-attachment / quick-attachment or chemical anchor
3. Stone paving / concrete paving / stone slabs / concrete slabs
4. Sand ballast (approximately 2 - 4 cm)
5. Stone aggregate substructure
6. Concrete foundation of C16/20 class (top surface of concrete 10 cm below paving surface)
7. Local land

### MOUNTING TO PAVING

#### Installation description

1. ZANO product
2. Quick-attachment / quick-attachment or chemical anchor
3. Stone paving / concrete paving / stone slabs / concrete slabs
4. Sand ballast (approximately 2 - 4 cm)
5. Stone aggregate substructure
6. Local land

### MOUNTING TO CONCRETE / ASPHALT

#### Installation description

1. ZANO product
2. Quick-attachment / quick-attachment or chemical anchor
3. Fixed restrained surface, such as concrete or asphalt
4. Concrete foundation of C16/20 class (top surface of concrete 10 cm below paving surface)
5. Stone aggregate substructure
6. Sand ballast (approximately 2 - 4 cm)
7. Local land

### MOUNTING TO CONCRETE FOUNDATION

#### Installation description

1. ZANO product
2. Quick-attachment / quick-attachment or chemical anchor
3. Concrete foundation of C16/20 class (top surface of concrete 10 cm below paving surface)
4. Local land
