

# **OPTIONS**

#### Housing

- European coniferous wood
- hardwood of European origin
- oiled exotic wood
- premium exotic wood
- concrete
- HPL board

### Mounting method

to screw

### Contribution

• galvanized sheet insert

# DESCRIPTION

The Altus quadruple recycling trash bin is designed for sorted waste and combines the sleekness of steel with high-guality wood. Customers can choose between structural steel (coated with RAL paint) or stainless steel, paired with either spruce or exotic wood finishes. This model features four separate compartments, each equipped with a galvanized liner. For waste sorting, you have the option to use just the liner or add color-coded disposable bags. The Altus bin is highly functionalâ€"each wooden slat is engraved with labels indicating what goes in each compartment. Customizations are available by altering these labels to fit specific requirements. The Altus recycling bin can either stand alone, ideal for locations like shopping mall corridors, or be securely fixed to the ground. Altus represents both the innovation and sophistication of urban furniture while promoting environmental responsibility.

# **GENERAL TECHNICAL DATA**

#### **Dimensions**

- width: 15 in
- height: 32 1/4 in

#### Capacity

- capacity: 14 1/2 gal

### Materials

- stainless steel profiles
- galvanized sheet insert
- wooden planks

# ZANO

Product: Altus recycling garbage can Catalog number: **15.652** Designer: Mateusz Wełmiński

NOTE: The drawings do not reflect the actual dimensions of the foundation. These are only sample installation diagrams taking into account the type of anchoring and the material of the substrate to which to attach the furniture.

The size of the foundation depends on local foundation conditions.

# INSTALLATION TO PAVING WITH FOUNDATION

### Installation description

- 1. ZANO product
- 2. Quick-attachment / quickattachment or chemical anchor
- **3.** Stone paving / concrete paving / stone slabs / concrete slabs
- 4. Sand ballast (approximately 2 4 cm)
- 5. Stone aggregate substructure
- 6. Concrete foundation of C16/20 class (top surface of concrete 10 cm below paving surface)
- 7. Local land

# **MOUNTING TO PAVING**

## Installation description

- 1. ZANO product
- 2. Quick-attachment / quickattachment or chemical anchor
- **3.** Stone paving / concrete paving / stone slabs / concrete slabs
- 4. Sand ballast (approximately 2 4 cm)
- 5. Stone aggregate substructure
- 6. Local land

# MOUNTING TO CONCRETE / ASPHALT

## Installation description

- 1. ZANO product
- 2. Quick-attachment / quickattachment or chemical anchor
- **3.** Fixed restrained surface, such as concrete or asphalt
- 4. Concrete foundation of C16/20 class (top surface of concrete 10 cm below paving surface)
- 5. Stone aggregate substructure
- 6. Sand ballast (approximately 2 4 cm)
- 7. Local land

# MOUNTING TO CONCRETE FOUNDATION

# Installation description

- 1. ZANO product
- 2. Quick-attachment / quickattachment or chemical anchor
- Concrete foundation of C16/20 class (top surface of concrete 10 cm below paving surface)
- 4. Local land
